Visakhapatnam, Andhra Pradesh  
LinkedIn: <https://www.linkedin.com/in/kolli-sumanth-84954b186/>

## PROFILE

Creative and results-driven professional passionate about transforming complex ideas into functional solutions. Enthusiastic about exploring new technologies and tackling challenges that drive innovation. Committed to delivering high-quality, scalable work and continuously learning to improve both individual and team performance.

## SKILLS

- Python, JS, Java, .net
- Data Structures
- MySql, Vector Db
- GCP (Associate level)
- Linux, Windows
- Effective Communication
- Teamwork
- Critical Thinking
- Time Management

## LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Telugu (Native)
- Kannada (Intermediate)

## HOBBIES

- Puzzles
- Badminton
- Traveling
- Bike Riding

## PROFESSIONAL SUMMARY

Full-Stack Developer with over 2 years of experience designing, developing, and deploying scalable web applications. Proficient in modern frameworks like React, TypeScript, Node.js, and MySQL, with a strong focus on delivering innovative solutions. Skilled in integrating APIs, optimizing database performance, and implementing CI/CD pipelines. Passionate about continuous learning, with ongoing training in Data Structures and Machine Learning. additionally interested in electronics manufacturing.

## EXPERIENCE

**Hexaware**2022 - PRESENT

**Full Stack Developer**

- Worked on critical projects such as Conduent Meditrac (Healthcare System) and Amplify (Educational Assessment Platform), focusing on optimizing performance and delivering high-quality solutions.
- Conducted a comprehensive analysis of existing applications during the Discovery Phase, identifying key areas for optimization and proposing actionable improvements.
- Designed and developed RESTful APIs using the Rapidx Tool, enabling seamless and scalable data integration across modules, which reduced integration time by 30%.
- Translated project requirements into actionable user stories, ensuring timely defect resolutions.
- Leveraged Azure for cloud deployment and Git for version control in CI/CD pipelines, reducing deployment time by 15%.
- Implemented Terraform to automate packaging and deployment processes, significantly reducing deployment failures and improving system reliability.
- Managed library dependencies, ensuring all versions remained up to date for enhanced security, compatibility, and performance.

## EDUCATION

**Bachelor of Technology** - Electronics & communication  
School of business | JNTUK 2018-2022  
**CGPA: 7.4**

## LEARNINGS

- Attended webinars on AI, ML, and DSA to stay updated on trends and tools.
- Expanded expertise in serverless architectures and Terraform for deployments.
- Developed a website using the Wav2Lip GenAI model to generate videos from text and image inputs, enhancing skills in AI integration and workflow design.

## CERTIFICATIONS

- AZ-900 Certificate from AZURE.
- Associate Cloud Engineer from Google.
- Python and React Developer from W3 Schools.
- API Design and Management from Bhoomi.

## AWARDS

### Pinacle Award

- Awarded for consistently exceeding project goals and demonstrating exceptional teamwork and impactful contributions at Hexaware.

### Hall of Fame

- Honored for consistent excellence and significant contributions in successfully completing a key project at Hexaware.

### Rock Star of the Month

- Awarded for outstanding performance, innovation, and contributions to project success
